SPORTING NEWS

By ANDY HORN

The base ball season opened Saturday when the college team of Pleasant Hill crossed bats with the local team on the home diamond. The weather was crisp and the game was fast at all stages.

The college boys had a fast team and played the game to the finish with pep in every play, but they were not equal to the local boys, who held them at their mercy throughout the game. The feature of the game was the pitching of Rose, who seems to have that old stuff that makes them break their backs at his twisters, that were never lacking. Brady tore the cover off the ball and seems to be the coming star of the season, while "Sheeny" the crack right fielder put the game on ice with a two bagger. Snodgrass, the lanky boy, showed his ability in the larceny line by stealing four bases, while Tot, the old time star, came out of the game with a broken finger as a result of stopping a peg by Horn, the old time receiver for the locals, who also showed that "they can come back." Cline, the third baseman has a peg that would make a runner think he was shooting them out of a German Krupp.

For the visitors: The features were the all-round playing of Smith, the college short stop, while Fry showed good form at third and the pitcher Johnson was clever with the stick.

OUR VIEW.

Farewell Academy Boys, I envy you.
Your skies of bonny blue,
Your sunshine soft, beneath whose ray
You loaf most all the live long day.
But I have heard your town is tight,
And sleep is all that's left at night
And so I think I'll stay out here
And breathe pure atmosphere.

Hastings' Catalogue
Tells You About It

THEY KNOW IT'S SAFE.

Parents who know from experience insist upon Foley's Honey and Tar Compound when buying a medicine for coughs, colds, croup and lagrippe. C. T. Luncford, Washington, Ga., writes: "I have used it for six years and it never has failed. I think it is the best remedy made for coughs and colds." Sold by Reed & Burnett.

Monterey.

M. W. West is erecting a residence on the foundations where his old residence was burned.

The young folks of the city now disport themselves in pleasure's fantastic way at the rink in the Goff building.

Some terrible attempts at gardening have recently been made by some of the people here, but terra firma is now covered over with a mantle of snow, rendering further procedure along that line all off for a while at least.

Geo. T. Kenfro, of Crossville, was circulating among our merchants one day last week.

The halt, the maimed and nearly all others possessing infirmities of any kind have been flocking from here to Kingston to see the pseudo-negro Choctaw doctor. Since an injunction has been served on him enjoining him from further practicing his art of healing it is quite likely that they will now remain at home and calmly and quietly endure their ailments.

Parties returning here from Jamestown report that grading on the Oneida Western railroad has progressed as far as the Sharp place, twelve miles north of Jamestown. It is thought the railroad will shortly be constructed through to Jamestown. The road penetrates one of the most remote and isolated sections of the state—the headwaters of Wolf river. Here in this region since the time when the mind of man runneth not to the contrary, the wary moonshiner has followed the even tenor of his inclination undisturbed by the "powers that be." Bear, deer and other animals have found a secure retreat; and, as Opie P. Reed says, the wild turkey has here strutted in "barbaric glee" for ages past. This region is well timbered, consisting of white oak, poplar, ash and other kindred trees.

Say, gentle Annie, dost thou hear those terrible detonations in the lambent atmosphere to the East of us? That, my dear, is the allied powers of the present "Yooropean" scrimmage lambasting and bombarding the forts at the Dardanelles. Bid them stay not their hands but rather encourage them to "lay on, MacDuff" for it is bringing down the price of flour!
